Emmet in HTML – Complete Cheat Sheet

Emmet is a shorthand syntax used in code editors to generate HTML faster.

Basic Elements

- div →
- p →
- section →

Child & Sibling Operators

- > (child) → nav>ul>li
- + (sibling) → h1+p

Multiplication

- * → li*3

Class & ID

- .class → div.card
- #id → section#about

Text

- {text} → p{Hello World}

Attributes

- [] → a[href='https://google.com']

Numbering

- $ → li.item$*3

Grouping

- () → header>(h1+nav)

HTML Boilerplate

- ! or html:5
